Recognized as one of the top raw bars in the country, Key West's oldest and most famous raw bar, The Half Shell Raw Bar, has been a Key West tradition since 1972.

The Half Shell Raw Bar is a "come as you are" seafood restaurant, situated on the historic Key West waterfront, offering the freshest fish, oysters, clams, conch and shrimp direct from our own fish market. In season, sample delicious stone crab claws and tasty Florida lobster.

Your visit with us would not be complete without a serving of our world famous conch chowder or key lime pie, both made fresh daily. Pick a table beside the gulf and watch the action as party boats and charter boats dock in the harbor. Or watch the fish that swim right up to the restaurant's outdoor dining tables.

Don't forget to take home a famous "Eat It Raw" T-shirt. And remember you always get a **FREE** shotglass with your purchase of our well known oyster shooter.

The restaurant is locally noted for its exceptionally, friendly service.

**SERVING THE FRESHEST OYSTERS ON THE ISLAND.**
